

# Game Board: The Earth

The controllers and alien races that have been always in power

During millenniums, there have been six great alien races that have ruled the system of life on Earth, but since the beginning of 2019 they began to be expelled by a combination of work done by all the Higher Self's of the planet and the forces and groups that assist Kumar. (the soul-consciousness-being of the Earth); therefore, in these moments, there is a "battle" to try to get them out of the planet, with no certain winner so far.

The 6 main races that have ruled the system of life on Earth: Asimoss ("Anunnakis"), Amoss ("Draconian"), Alomiss ("Mantis"), Zuls ("Insectoids"), Animiss ("Antoids") and Olslar ("Canines"). Subservient groups: "Short Greys".

## Power structure: Who manages us?

Gross way, because it is very complex, these are the main levels of power:

**First circle of power:** 3 Asimoss in human avatars

**Second circle of power:** 6 members, one for each alien race (Amoss, Alomiss, Zuls, Animiss, Olslar, and an original Lhumanu)

**Third circle of power:** 12 members, composed of the so-called "12 tribes of Israel", that is, a council formed by ancestral lineages that control all the rest and that come from the time of the Covenant of Moses with Yahweh. They have the original algorithm of the Kabbalah as it was delivered by Anunnakis (Enlil=Yahweh), which allows the manipulation of subjective reality, and therefore, the control of the "matrix".

**Fourth circle of power:** 24 members, two for each of the most important "families" of the original 12 tribes of Israel.

**Fifth circle of power:** Royalty and descendants of "royalty" lineages from the remotest antiquity. Monarchies and bloodlines. In charge of executing orders of the third and fourth line. They have certain independence of movements while they comply with the rules dictated by the higher levels. They are responsible for maintaining a coordinated structure between the upper part of the Control System and the lower part. Kings and monarchs are intermediaries between these levels in exchange for submission and power.

**Regional and national committees subject to the third and fourth circle of power:** Planners of the destiny of the human race. They are a kind of "Council" of 11 members descended from ancestral lineage and are grouped by areas of work and influence. There is a "global council" and different "councils" of power in each country and geopolitical areas.

**Sixth level of power:** Degrees from 271° to 360° of secret societies. Members of orders and secret societies, internal to the publicly known: Masons, Rosicrucians, Round Table, Skulls and Bones, etc. The organizations of this level mark the agenda for the entire planet in the different areas that they control: educational, social, economic, etc.

**Seventh circle of power:** Degrees from 181° to 270° of the secret societies. Families and lineages such as the Rothschilds, Rockefeller, etc. International institutions such as Bilderberg, Council on Foreign Relations (CFR), Club of Rome, Committee of 300, etc.

**Eighth circle of power:** Degrees from 91° to 180° of secret societies. Multinationals, world organizations, banking and economic system. Military, pharmaceutical companies, etc. Organizations like United Nations (UN), Food and Agriculture Organization of the UN (FAO), NATO and all this network.

**Ninth circle of power:** Degrees from 73° to 90° of the secret initiatic societies.

**Tenth circle of power:** Degrees from 34° to 72° of secret initiatic societies.

Inter-dimensional entities, negative, "djinn", astral, "demons", all kinds of non-physical entities that are nourished by the energy of the human beings. Created by the Control System itself, or "born" from egregors and concentrations of negative energies.

A part of the human elite, at the top of the Control Pyramid, has the ability to interact directly with inter-dimensional entities, in addition to the existing agreements with the different off-planet races.

Our planet: The Earth, a genetic reserve of millions of species, originally created as a "living library".

Human beings live in a three-dimensional hologram, a subjective reality, projected towards and from our mind to create a common global reality. Outside the control grid, the reality is completely different.

Those who assist us and support

### The pro-humanity Coalition

More than 50 groups, alien races and species collaborating for the evolutionary leap of the planet and the human race.

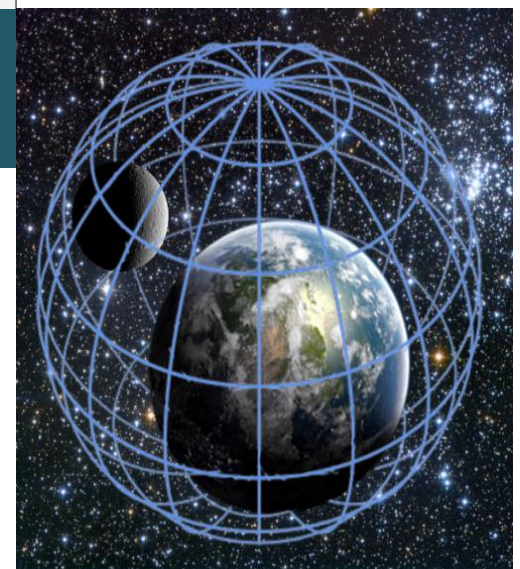

The totality of mankind, divided between the Timeline #33 and Timeline #42 (approx. 95% and 5% of people respectively)

Other "positive" alien support races and beings from non-physical planes. Hierarchies of positive polarity. There is usually no direct intervention, but support to level the playing field towards the human race.

Other intra-terrestrial races of "positive" orientation, helping the evolutionary leap of the planet.

A multitude of groups and races are currently incarnating in the human race form to help from within, without breaking the rules of free will. Many of these people do not remember who they are or why they came, many others are among the "contacted" or those who remember their origins and missions.

**The fate of humanity depends primarily on the same humanity, since only from the "inside" can this fight be fought effectively against the Control System.**
